

1 **ABSTRACT OF THE DISCLOSURE**

2 A golf club head includes a hollow body with a heel, a toe, a top, a
3 bottom, a strike plate and a rear portion. A recess is defined at the bottom of the
4 body and extends to the rear portion of the body. A strip is integrated with the
5 body covering the recess. A tab is formed at the rear portion of the body, and has
6 an inlet defined through the tab and in communication with the recess.
7 Vibration-absorbing material is injected into the recess through the inlet. A
8 sealing element is engaged in the inlet to enclose the recess.
